

Dear President

We write to you again to update you on developments in the Australian Congress. As you may have heard by now, there has been a change in the date for the Congress. The Congress has moved by one week to April 7-12 2006 from its previous dates of April 1-4 2006. The reason for this was a clash with the Australian Formula One Grand Prix. Despite this, we think the move will be a positive one. The Congress is now gaining momentum. The scientific and auxiliary programs are looking very exciting with some marvellous international and local speakers.

Once again, we extend an invitation to you, as President of your association, to join us in Melbourne in April next year with complimentary registration for the scientific and social program. The registration brochure will be sent to you shortly and we ask that you note your registration as complimentary when completing the form.

We hope that you are able to bring many of your fellow delegates from your association with you to the meeting. We would be grateful if you would provide the information of the date change to members of your association and, if possible, post the details of our Congress on your association's website or newsletters.

We have also taken the liberty of forwarding some promotional cards to you by mail for distribution amongst your membership. Additional copies of these are available and if it were possible, we could arrange to forward more to you for mailing to your entire membership base. Please let our Congress Secretariat know if you are able to assist us with this promotion (contact Kate Smith [kate@wsm.com.au](mailto:kate@wsm.com.au) or fax +61 3 9645 6322). You can also view details of the Congress and registration brochure on the website: <http://www.aso.org.au/aoc2006>

We look forward to welcoming you to Melbourne in April next year.

Kind regards and best wishes

Dr Peter A. Scott  
Congress Chairman

Dr Ted Crawford  
President  
Australian Society of Orthodontists Inc
